Rad s Fine Cloud License Sustavom

Programi: Svi GEO5, FIN EC, TRUSS4 programi

Cilj ovog priručnika je prikazati osnovni tijek rada s novim Fine Cloud License sustavom.

Od verzije 2025, svi Fine programi su osigurani vlastitim sustavom na temelju cloud-a. Nakon kupovine softvera, Fine Account je kreiran za svakog korisnika. Logirate se u račun koristeći email adresu i lozinku (poveznica za postavljanje lozinke je poslana putem emaila prilikom postavljanja licence).

Ovi login podaci se koriste za:

1) Instalaciju programa

2) Pokretanje programa

3) Za pristup licenčnom servisu, gdje se license mogu, npr. prenijeti za offline upotrebu

4) Za pristup Online Trgovini, gdje možete upravljati korisnicima, njihovim pristupima ili kupiti dodatne programe

Svaku od ovih točaka detaljno ćemo pojasniti.

1) Instaliranje programa

Najprije, preuzmite Fine Installer 2025 s Fine website.

Download purchased software.

Fine Installer 2025 Version: Date: 14 Jan 2025	
Download (1.19 MB)	Minimum System Requirements
Fine Installer automatically installs or updates purchased software.	Display resolution 1024×768 pixels Graphics adapter supporting OpenGL 3.3 Internet Connection See the <u>recommended system requirements</u>

Pokrenite preuzetu datoteku (*FineInstaller.exe*) i **unesite vaše login podatke**. Ako se planirate često logirati s ovog računala, možete odabrati opciju za spremanje podataka.

U gornjem dijelu (1), možete vidjeti kartice za individualne prozivode. GEO5 i FIN EC programi mogu biti instalirani. U ovom priručniku ćemo demostrirati instalaciju GEO5 programa.

Koristeći tipku "Edit" (2), možete proizvoljno postaviti koji će se programi instalirati. Prema zadanom, svi programi su odabrani. Programi koji nisu kupljeni od strane korisnika će se instalirati kao Demo verzije.

Programi uključuju sve opcije jezika, ali ovdje možete odabrati na kojim jezicima će se instalirati dodatna dokumentacija za pomoć.

Kako biste nastavili s instalacijom, kliknite na tipku "Install" (3). Dodatne opcije, kao što su vraćanje na staru verziju ili odabir 32-bitne/64-bitne verzije, su dostupne unutar padajućeg izbornika.

Jednom kad ste uspješno instalirali, programi će se pojaviti u "GEO5" mapi na vašoj radnoj površini te ih možete pokrenuti.

2) Pokretanje programa i pristupanje licencama

Kad pokrenete bilo koji instalirani program, pojavit će se login prozor s dostupnim licencama. Ako ste spremili vaše login podatke prilikom instalacije, login će biti automatski. Također možete spremiti vaše podatke ovdje. Unesite vaše login podatke i kliknite na "Log in to Fine Account and run"

Nakon pokretanja programa, možete provjeriti detalje licence u "**About**" prozoru, koji je dostupan iz <u>control menu</u> unutar izbornika "**Settings**".

Pod karticom "License" (1), pronaći ćete informacije o vašoj licenci i mjestu njene pohrane (2).

Licenca je prema zadanoj postavci pohranjena online u Fine Account-u – u ovom slučaju, prikladno je da imate instalirane programe na bilo kojem broju računala. S druge strane, morate imati trajni pristup Internetu kako biste ih koristili.

Za offline korištenje, licence se mogu prenijeti na računalo ili hardverski ključ koristeći **Fine Licensing Service** (3). Ovaj postupak će biti objašnjen u sljedećem dijelu.

U kartici **"Offline Licenses"**, vidjet ćete gdje se vaše licence mogu prenijeti (1) — obično na računalo koje koristite (software key). Ako ste spojili hardverski ključ (hardlock) na vaše računalo, licence se također mogu pohraniti na njega.

Za prijenos licenci, kliknite na tipku "Transfer licenses to key" (2). Prijenos licence na PC zahtijeva TPM 2.0 modul.

4) Upravljanje korisnicima u Online Trgovini

Korisnici s više od jedne licence spadaju u Business ili Enterprise kategoriju. Ovi korisnici mogu imati više login računa, kojima se upravlja putem Online Trgovine na Fine web stranici.

Logirajte se u Online Trgovinu preko Fine web stranice.
